Record Savings Deposits At Westfield Savings Bank

WESTFIELD — Savings deposits at Westfield Savings Bank were at a record \$41,357,490 on Sept. 30, President Arthur W.

Knapp told the quarterly meeting of the board of trustees at the Sheraton Inn. Henry F. Burrows, chairman of the board, presided.

Junior Grange #105 Meeting Sept. 23

The regular meeting of Community Junior Grange #105, scheduled for the third Saturday of the month, has been postponed until Saturday, Sept. 23rd at 2 o'clock. Miss Carol Goodwin will complete the installation of officers.

A Halloween program and party are being planned by the lecturer, Richard Allen. Misses Catherine Ainsworth and Beth Werner are in charge of refreshments. Members are to wear Halloween costumes if they have them.

This meeting will mark the beginning of our attendance contest, and all members should make an effort to attend, for the losing team will be expected to treat the winners at a later meeting. Everyone is on a team, and the captains are the Misses Linda Allen and Beth Werner.

During the past year, Mr. Knapp said, savings deposits showed a gain of \$3,917,495, and the increase for the six months ended Sept. 30 was \$1,372,738. Westfield Savings now has more than 30,300 depositors.

"The people of the communities we serve are continuing their high level of savings activity," Mr. Knapp said. "And of course this speaks most favorably for the economy of the area."

Real estate loans on Sept. 30 totaled \$34,149,223, also a record figure, showing a gain of \$3,888,825 for the past 12 months and a gain of \$1,068,403 for the past three months alone.

"There is an excellent demand for mortgages," Mr. Knapp told the trustees. "We have, however, observed a tendency toward some tightening of interest rates in recent weeks."

Mr. Knapp said "every indication now points to another highly successful year for the Westfield Savings Bank."

Moore Candidate For School Committee

Rita G. Moore today announced her candidacy for the Republican nomination for School Committee member at the Republican caucus on October 14th.

Mrs. Moore said she will present to the voters of Agawam a candidacy based on years of interest and active participation in community affairs and programs at both the civic and government levels.

"In seeking the nomination, I ask the support of all Independents and Republican voters at the October 14th caucus."

F. Hills Community Grange Meet Tues.

Letellier Heads Agawam United Fund Campaign

More than 100 volunteers, men and women prominent in the civic, business and industrial life of Agawam, are taking active part in the Greater Springfield United Fund-Red Cross Campaign.

Heading the Public Service Division solicitation is Town Clerk Brandon N. Letellier, who has invited all state, federal and town government employees who do not receive a solicitor, to contact him at his town office.

The Business Division activity in Agawam is headed by William G. Maziene, manager of the Agawam Branch of Valley Bank and Trust Co., as major. The captains are: Peter Wagner, manager of

H. P. Hood & Sons Co.; M. D. Smith, also of the H. P. Hood Co.; Jack Moltenbrey, executive director of Agawam Community YMCA; Roger Proulx, manager of the Agawam Branch of Third National Bank of Hampden County; Raymond McCarroll, manager of the Agawam Food Mart; William Sullivan, personnel manager of Buxton's Inc.; and Dante A. Ferioli, manager of the Agawam Branch of Springfield Institution for Savings.

Mrs. Philip Nassif is chairman of the Agawam General Residential Division and is being assisted by about 100 volunteer women in their door-to-door solicitation.

In addition, Mrs. Edward A. Pettis, town chairman for Advance Gifts, and her team of 25 volunteers have already completed their part of the campaign.

The general United Fund-Red Cross must raise \$1,398,141 to support 46 United Fund Agencies and Springfield Red Cross. General Chairman Allan A. Campbell says that if everyone "gives his Fair Share" the present standard of services to the needy, the unfortunate, the young, the elderly, the sick and the mentally-ill will be maintained. The campaign runs through Oct. 28. Anyone who failed to be solicited may mail his check to United Fund Headquarters, 184 Mill St., Springfield.

YOU AND YOUR INSURANCE

(A public service column about property and casualty insurance)
by KENNETH S. RAFFOL

SHATTERED GLASS RANKS HIGH AS BUSINESS HAZARD

"I've just added a good deal of glass in modernizing my store front and know how expensive it would be if I had to pay to replace it," a druggist writes. "What's the most complete protection I can get to avoid that?"

Since one of the first insurance companies to provide glass insurance reports that one out of every four store fronts has some glass broken each year, it ranks as a risk that almost every business owner should consider insuring against.

Glass insurance can cover you for the replacement of glass in your store front as well as for the cost of any decorating or lettering you may have had on win-

allow you to compare the cost of replacement with the relatively low cost of protection to avoid that expense.

This column will be glad to answer questions you may have about property or casualty insurance. Send them to The Agawam Independent, marked to the attention of Kenneth S. Raffol.

"Our new SIS Agawam Office will be designed for full family service, accenting mortgage, personal loan and other SIS services, as well as savings," John McP. Collins, SIS vice president announced. "As the only thrift institution in the community, we want to provide the most efficient, convenient and modern savings bank facilities for our many customers in the rapidly growing town of Agawam."

"The new location at the major traffic and commercial center of Agawam is an ideal location from which to provide these expended savings bank facilities," he noted.

In the past fifteen years the population of Agawam has increased by 72% and, according to the population growth projected in the Agawam Master Plan, it will increase another 50% by 1980 to an estimated

27,000 residents.

Since SIS first opened its Agawam Office in October 1956, the volume of banking transactions handled by the staff has almost tripled. As a result of this steady growth, the present office is now operating at full capacity, servicing over 7,000 savings accounts with total deposits of 11,587,550.

Dante A. Ferioli of West Springfield, Manager of the SIS Agawam Office, is assisted by Mrs. Bernadette Holden of West Springfield, Mrs. Barbara Goyette of Agawam and Mrs. Virginia Anderson of Agawam.

How To Keep Out Of Trouble

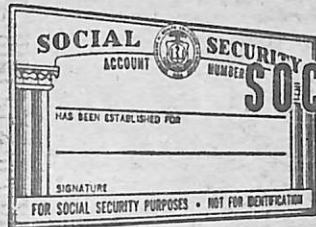

If children were taught in the home by their parents and in the schools and Sunday schools by their teachers, one simple little rule of action, think of the sorrow and suffering it would save, not to mention the countless millions of dollars.

This rule of action wouldn't require any new laws, it wouldn't cost a dime of taxpayers money, and it would reduce the cost of law enforcement and court trials. Respect for the rule would eventually become automatic with most children as they grew up.

There wouldn't be so many news reports of murder, robbery, kidnapping, purse snatching, automobile stealing, etc., etc.

And what is the rule of action that would reduce our vicious crime record, if it became part of the thinking of children when it was taught to them daily by their parents and schools, along with suitable illustrations of what it meant?

Rule—"Keep your hands off other people and other people's property." It's that simple to keep out of trouble.

SOCIAL SECURITY Questions and Answers

Q. What would you do if major illness suddenly struck? Could you meet the many expenses of hospitalization, a long period of recovery, or any special treatments which might be necessary?

A. The possibility of major illness at any age always raises these questions. But providing the answers becomes especially important if you are planning to retire soon or have already reached the age of 65—a time of life when many people living on a limited retirement income find it even harder to meet the expenses of such an illness.

Now, under recent changes in the social security law, two separate health insurance programs (often called "Medicare") have

been established to help you meet hospital and medical costs after you reach 65. These new programs will go into effect in July of 1966.

The first program is hospital insurance. It will cover most of the costs of hospitalization; diagnostic tests in a hospital outpatient department; and skilled nursing home care and home visits by specially trained health personnel following hospitalization.

Who qualifies for this program? Practically everyone 65 or over is eligible to receive this basic hospital insurance protection.

Participation in the second plan—a supplementary medical insurance program which helps pay doctors' bills and other important services not included in the first plan—is voluntary. Again, nearly everyone 65 or over may join; and participants pay a premium of \$3 each month, which is matched by the Federal government.

Most people eligible for the basic hospital insurance program need take no special action now. The starting date for both programs is not until July 1966.

If you have already filed an application and established that you are entitled to social security or railroad retirement benefits (even if you are not receiving them because you are still working), you will automatically be covered by the hospital insurance program.

You do not have to go to your social security office to fill out another application. Literature explaining both health insurance programs and an application form for joining the medical insurance plan will soon be mailed to you.

If you are eligible for social security or railroad retirement benefits but haven't yet applied, visit your social security office right away to apply for both monthly retirement benefits and hospital insurance.

If you are not eligible for social security retirement benefits go to your social security office to register for hospital insurance, and, if you wish, for medical insurance also.

Remember, people 65 or older who are currently receiving social security or railroad retirement benefits need take no action now. They will receive information on both health insurance programs in the mail.

For more information about health insurance benefits for people 65 or older, call the social security office at 891 State Street, Springfield, Mass. The telephone number is 781-2420.

Chef's TOUCH

Spicing Up Meats

Everyone today knows that foods taste infinitely better when they are spiced. But people knew this long ago too — and with a vengeance. Empires were built on the spice trade — and some toppled. Wars were fought for spice territories and shipping routes. Exploring expeditions were financed by royalty to find elusive herbs. They were precious stuff. In fact, in 1284 there are records showing that a pound of Mace was worth three sheep or half a cow.

Today spices sit in long rows on supermarket shelves and we little realize how earth-shaking they once were. We do realize, however, how all-important they are to gastronomy. There's no meat that can't be enhanced with the proper seasoning. Salt and pepper are just a beginning in the art of spice cookery. But most new homemakers have little idea what spice goes with which meat, and that's why a new concept, Chef's Touch, is such a boom for beginning as well as seasoned chefs.

A collection of 20 pre-blended, pre-measured seasonings, this new product is geared toward specific meats as well as other foods. There's seasoning for lamb, ham, beef, veal, poultry — as well as fish, vegetables, eggs, rice and dough. As a little bonus, each bottle has a fold out label which gives basic instruction for using the specific seasoning and several recipes for unusual dishes.

This new concept, developed by McCormick, does away with random spicing and over-seasoning. It's the smartest new way to spice up meats. And worth infinitely more than three sheep or half a cow to the modern homemaker.

Fortunes made in no time are like shirts made in no time: it's ten to one if they hang long together.

TODAY'S AGRI-FACT

We consumers are well used to the term "Lady" being used together with the name of a cosmetic or women's garment to indicate both the sex of the ultimate consumer and the daintiness of the product. But how many of us know that a number of small, dainty apple varieties that sell for 60 cents a pound are called by such names as Lady Pippin, Lady Finger, Lady Seedlings, Lady Sweet and Lady Washington.

Agawam Swamps Tech 35-0

Agawam won its third AA Conference game Saturday with an easy victory over Technical High School. Bill Polopek starred in the first half behind good blocking of the heavy Agawam line by scoring 4 touchdowns. Al Mercadante scored the other Agawam touchdown when he in-

tercepted a Tech pass and ran 80 yards. Agawam's second string saw action in the second half under quarterback Bill Eggleston. Next week Agawam plays Westfield at Westfield, Westfield, like Agawam, is also undefeated in its first three games.

With the approach of the fall hunting season, some of us tend to retire our fishing tackle for the winter. This is a mistake, I found out one day many years ago. My partner and I were duck hunting on a Minnesota lake, waiting for a flight of bluebills supposedly hurrying south ahead of a Canadian cold front. We were a day early. The front was still in Canada — so were the ducks. The Indian summer sun blazed overhead. We shed our canvas coats, and ate our lunch while mosquitos dive-bombed the blind. Out of nowhere came a lone hen mallard sliding into the decoys on cupped wings. We fired almost simultaneously and the bird splashed down, feebly twitched — then lay still. My lab, Dolly, wasn't with us that day, so I was playing retriever. I started to pull up my waders to go after the duck when my partner interrupted, "Hold on a second, I want to try something." With that he reached into the game pocket of his hunting jacket and pulled out a compact, three piece Garcia spinning rod and a Mitchell reel. From another pocket he took out a floating bass plug. My friend flipped the plug toward the floating dead bird. The lure missed by a couple of feet. Hurrying the plug back for another try, my friend looked back with an apologetic expression. At that moment, I saw a V-wake heading straight for the plug and a second later an arm-long pike grabbed the plug and cartwheeled over a decoy. The line tangled with the decoy cord and the fish was off. The duck hunting was forgotten for the next few hours, as we covered the shoreline of the small bay and picked up four nice pike and one husky smallmouth. The cast and scene of this particular "drama" happened to be bluebills and pike in Minnesota. But, the protagonists could just as easily have been coot and flounders in Long Island Sound, sprig and steelhead in California, or greenheads and bass in Louisiana. Doubly armed with a Mitchell or Ambassador reel and one of the convenient "back packer" rods any gunner can double his sport during these glorious autumn days.

UPLAND GAME TIPS

"Go slowly" is the pass word of upland hunting. Birds or rabbits will remain hidden in the thick brush until the last possible minute. Check all brush piles, clumps of grass or weeds as you pass and chances are you'll flush whatever game is around.

One of the joys of upland hunting is having a well trained dog along. He can find, flush and retrieve game you might never have seen. And there will be almost no downed or crippled birds or animals left behind.

If you've sharpened your aim and maneuverability with pre-hunting trap and skeet shooting the actual hunt should be easier. For the rapid shooting necessary to bag upland game, experienced hunters choose the lightweight Remington Model 1100 automatic shotgun with 12 gauge plastic shells.

HEALTH FOR ALL . . .

Don't Be A Statistic

The figures crowd the sheet of paper, trim and impressive in their neatly ruled columns. But very remote and impersonal, too. Then you take a closer look. Figures, yes—but they represent people. What people? People who got sick when they could have stayed well. People who died when they could have remained alive.

They got sick, they died—of what? The answer may surprise you—you thought it didn't happen any more. The answer is tuberculosis. It DOES happen—not as much as it once did, but still far too much. More than 50,000 new active cases were reported in 1964. Nearly 8,500 died of the disease.

When you give the United Way you give to

The Salvation Army

That's a lot of people to be victimized by an ailment widely assumed to have "vanished" like smallpox.

TB is difficult to spot with the naked eye. Sometimes it's present for months—even years—before it's detected. Which brings us right back to those rows of figures on the paper. One seems to leap right out at you—a few little words that tell a big story.

In 1963, it says, more than 2,000 people whose deaths were listed with TB as a chief or subsidiary cause "had never been reported as cases of tuberculosis." How are you going to get rid of a disease when you can't even find out who has it?

But we CAN find out, if people will just cultivate that bump of responsibility that tells them what's needed for their own sake and everybody's. What's needed is to get a TB skin test regularly and to find out whether you have that troublesome germ in your body—and if so, what to do about it.

Ask your local Christmas Seal organization for the free booklet, Facts About TB and Other Respiratory Diseases." And follow the advice given.

ICE CAPADES OPENS NOV. 18

To help commemorate the 100th birthday of Lewis Carroll's famed fairy tale "Alice in Wonderland" the 26th Edition of Ice Capades have chosen this celebrated fantasy as just one of nine great production numbers. And that's only one of the wealth of wonderlands to be unfolded in the all-new exciting world of Ice Capades when it opens at the Eastern States Coliseum, West Springfield on Thursday, November 18th, for two gala weekends.

There's the plush wonderland of Old Vienna elegantly revived in "Waltz Rouge," the lush tropic wonderland of Polynesia explored in "Holoholo Mokupuni." And, for the first time, the spotlight of Ice Capades entire second act will focus on a single theme, a most incredible wonderland, "Salute to the World of Entertainment." Noted T.V. network producer-director Sid Smith combines sensational skating comedy, romance, make believe, and heart-pounding music into one walloping whole of a show.

World pair-skating champions, brother and sister Otto and Maria Jelinek, free-style champion Tommy Litz, spice-on-ice Lynn Finnegan, twice World's champion Aja Zanova and Swiss and Swedish Gold Test champion Ann-Margret Frei top the roster of skating talent headlining this year's Capades.

Last year every performance of Ice Capades was sold out when they visited the Eastern States Coliseum. Because of this tremendous public demand Ice Capades will be held over for 2 gala weekends. Opening Thursday, November 18th there will be just 8 nights and 8 matinees. Nightly performances Thursday and Friday, Nov. 18 and 19, Tuesday, Nov. 23 through Friday, Nov. 26 at 8:00 p.m., Saturday, Nov. 20 and 27 at 9:00 p.m. There will be 8 matinees, Saturday, Nov. 20 and 27, Sunday, Nov. 21 and 28 at 1:30 and 5:30 p.m. each day.

Mail orders are now being accepted by the Springfield Hockey Ass'n., prior to the Box Office opening Tuesday, October 26th.

SQUARE DANCE

By Beryl and Doug Shaylor

Next Wednesday, Oct. 20th, marks the beginning of the special Refresher Course being sponsored by the Agawam Promenaders. This brush-up course will enable people who have not danced recently to catch up on all the latest dance figures without having to start all over again and go through the beginners 21-week course. Caller Joe Phystupa will handle the instruction for the five week Refresher Course.

The class is open to all former western square dancers regardless of any club affiliations. This is the first and only such course to be given in the Springfield area. Classes will be held in the Robinson Park School, Begley St., Agawam.

The Club's 10th Anniversary Party will be held Friday evening, Oct. 22nd at the Robinson

Park School. One of the highlights of this gala affair will be the fashion show depicting the very latest in square dance styles. The show will feature 10 models from the club and fashions for the occasion will be furnished by the B Bar M Square Dance Store. Narrating the program will be Jane Brodeur. Models are: Helen Draghetti, Madeline Dugan, Thelma Gardner, Edith Gottsche, Gwen Gregory, Rene Jury, Ethel Kane, Maryann Kane, Rosemarie Nathan, and Betty Scoville.

All former members of the Promenaders Club are urged to attend this Birthday Celebration and renew old acquaintances.

Last Friday night, club members and many guests enjoyed a lively night of dancing to the calling of Stan Huntley. Stan was a caller for several area clubs some time ago and many of his former friends were on hand to welcome him back to the area.

At Your Service

DAVID C. GALLANO
Director of Veterans Services

Veterans with severe, service-connected disabilities will have an additional ten years to complete needed rehabilitation training as a result of a new law enacted by the 89th Congress and approved by the President, the Veterans Administration at Boston announced.

The new law is of particular importance to seriously disabled veterans of World War II who have had long periods of hospi-

talization and have only recently reached the point where the program of training is possible.

Other veterans who were not considered seriously disabled, and originally did not feel in need of rehabilitation, have now become unemployable because their service-connected disabilities have worsened. These veterans now will have an opportunity under the new law to enter a planned program of vocational rehabilitation.

Even though seriously disabled, many veterans can be made employable by carefully-planned occupational training. Such training capitalizes on remaining abilities and aims for occupations where the veterans' disabilities are no barrier to performing the duties.

Let Halloween Go To Your Head

Attention all costume contestants for this year's Halloween parties. If you're stumped over what to wear—or if you have the problem of outfitting several youngsters and hate to disappoint them with last year's Halloween hand-me-downs, here's a solution that promises lively entertainment for partygoers of all ages.

Really extraordinary costumes can be built around super strength aluminum foil head masks made by molding over an inflated balloon. When completed, these clever disguises slip over the head and rest on the shoulders.

If the children choose to trick or treat at night, you can feel at ease about their safety since aluminum foil reflects the gleam from street lights and car headlights.

Making masks is great fun—and so easy that the children can do their own. Plan to get your Halloween costumes out of the way early this year by setting aside the next rainy day as Mask Making Day.

To create the mask above, all you need is a large balloon, a single roll of Alcoa Wrap aluminum foil and a few simple props. The balloons sell for 10¢ in most 5 & 10¢ stores.

Blow up the balloon to provide the needed size of mask. For medium and small children, this should be 10 to 12 inches in diameter. Place the inflated balloon neck up at the center of a stack of three-foot-long sheets of Alcoa Wrap aluminum foil. Have at least 10 or 12 foil sheets.

1. Bring the first sheet up on either side of the balloon, turn the balloon and bring up the next sheet. (Foil should always overlap for easier hold, crush loosely.)
 2. Continue turning until balloon is completely covered.
 3. Crush two sheets of foil—one into shape of nose and the other to add to the top of the head to make it pointed. Fasten them into position with cellophane tape.
 4. Then mold next sheet of foil over nose and rest of head to hold them in place. Now use rest of foil sheets. Tuck in edges at tip to form and secure opening. Be sure to leave it large enough to get your head through. Then let air out of balloon.
 5. Cut slanted eye and mouth openings.
 6. To create the hair, cut colored ribbon into loops and pin them to the mask. Ears, tail and paws are cut from double thicknesses of Alcoa Wrap. Ski pajamas or plain clothing completes this punchy rabbit costume.
- Other animals, clowns, space men and comic strip characters are all easy to make. For a free booklet offering additional designs, write Halloween Masks, 692 Alcoa Building, Pittsburgh, Pa. 15219.
